Odd Man Out Problem

Pseudo Code

```
1    int non-unrepeated(int a[]){
2
3        int unrepeated = a[0];
4        int length = a.length;
5        for(int i=1;i<length;i++)
6            unrepeated = urepeated^a[i];
7        return unrepeated;
8
9    }
```
